

Workplace safety

Student worksheet

PPE and staying safe

Personal Protection Equipment (PPE) helps you keep safe. PPE includes:

 safety glasses

 gloves

 hardhats

1. Find PPE

Look at the job on the left. Use the internet to find out one piece of PPE that you need to wear in order to do the job safely. Write it down in the space provided.

Job	PPE equipment
If you are a...	What will you wear?
 Builder	
 Motor mechanic	
 Dentist	
 Laboratory technician	
 Gardener	
 Scaffolder	
 Chef	
 Vehicle painter	

2. Discuss PPE

What PPE could be uncomfortable to wear?

Discuss with your partner and write them down in this box.

When you next meet with your transition planning team you can show them this list.

Staying safe at work

- Read by yourself or with a peer
- Listen to your teacher read it

Situation

Sally is a year-10 student on work experience at a science laboratory.

Before Sally starts her work experience she:

- gets her uniform
- has training in how to stay safe in the laboratory and wear the PPE
- meets Josh, her workplace mentor

Sally starts work experience.

Josh makes 'jokes' about Sally which make her feel uncomfortable and unhappy.

Sally asks Josh to stop.

He just says: "It's just a bit of fun".

Josh keeps making jokes.

Talk to a peer

What should Sally do?

- _____
- _____
- _____
- _____

Other ideas:

- _____
- _____
- _____
- _____

Sally is feeling 'uncomfortable'

How does she know?

What might she think?

List what she might feel

Four horizontal lines for writing answers.

At your next transition planning meeting talk about...

How do YOU feel uncomfortable?

Two horizontal lines for writing answers.

And if YOU feel uncomfortable,

Who can you tell?

Two horizontal lines for writing answers.

What can YOU do?

Two horizontal lines for writing answers.
