Lesson objectives

Students will develop career-related self-awareness.

Students will further their appreciation of individual differences in sensory and learning profiles and how this relates to study and work.

Adjustments for students with diverse abilities

Some students may take longer than the expected duration to complete the interactive web-based activity on the *myWAY Employability* website or may have difficulty reading or understanding the task. In these cases, it would be appropriate to organise prior to the lesson for a peer mentor or additional adult to assist students with the task.

A *Glossary* is provided for students to pre-teach vocabulary that appears in this practice to students who need it.
